ScanAtHome PC Application Full Version Download

Download version 3.06. This is the full installation version of ScanAtHome PC Application for users whom have not yet installed the software. If you currently are running ScanAtHome PC Application on your computer and are in need of an upgrade, check out our Upgrade Center.

Download Instructions:

1) Identify which ScanAtHome barcode scanner you are using.

Note: Both installation packages below contain THE SAME software, and can be used by either of the two ScanAtHome barcode scanners. However, by choosing your barcode scanner, the installation program will automatically configure the program to talk with your scanner. At any time after installation, you can easily change it back and forth between scanners!

2) Click on the download icon next to the scanner you are using.

3) The download process should start immediately.

For detailed Download and Installation instructions – click here
